API DEVELOPMENT STANDARDS

Document ID: ENG-API-001

Version: 1.0

Effective Date: January 2026

Purpose

This document establishes standards for developing secure and scalable REST APIs.

API Design

Use versioned endpoints:

/api/v1/resource

HTTP Methods

- GET – Retrieve data
- POST – Create data
- PUT – Update data
- DELETE – Remove data

Response Format

```
{  
  "status": "success",  
  "data": {}  
}
```

Security Requirements

- HTTPS mandatory
- JWT authentication required
- Input validation required

Performance Standards

- Response time under 500ms
- Proper pagination
- Efficient database queries

Table

Standard	Requirement
HTTPS	Required
JWT	Required
API Versioning	Required
Input Validation	Required
