

NeuralMind AI Solutions Pvt Ltd

AI PROJECT DEVELOPMENT GUIDE

Document ID: AIML-PROJ-001

Version: 1.0

Effective Date: January 2026

Purpose

This guide defines the standard AI project lifecycle followed within the organization.

Project Lifecycle

1. Problem Definition
2. Data Collection
3. Data Cleaning
4. Feature Engineering
5. Model Training
6. Evaluation
7. Deployment
8. Monitoring

Evaluation Metrics

- Accuracy
- Precision
- Recall
- F1 Score
- ROC-AUC

Documentation Requirements

Every AI project must include:

- Dataset description
- Model architecture
- Training procedure
- Evaluation report

Table

Phase	Description
Data Collection	Gather data
Cleaning	Prepare data
Training	Build model
Evaluation	Measure performance
Deployment	Production release
